

Can you complete this week's fine motor challenges?

Wednesday: Put a rubber band around your fingers and transfer small objects from one bowl to another.

Thursday: Use scissors to cut straws to smaller pieces – keep it for tomorrow's activity.

Friday: Use your cut straws to thread onto a wool or string to create a necklace.

Tuesday: Use toothpicks or kebab sticks and marshmallows or grapes to create shapes. How many can you make?

Monday: Write a number on a piece of paper and add that many paperclips onto it.
