

Autumn 2021 – Maple Room Newsletter

September 2021

Welcome!

We hope you all had an amazing summer even though the weather could have been better (in my opinion!) The Maple room team would like to give you a very warm welcome back for what is now the Autumn term.

We are thrilled to welcome lots of new children and families to Maple room, our team will be here to support the children and families with routines and settling into Nursery.

As you are all aware Miss Hoptroff is having a baby and will begin her maternity leave soon. Joining the Maple room team in late September will be a new Early Year's Practitioner, Mrs Try. Mrs Try has worked in a nursery in Thetford for many years and has a wealth of experience in the Nursery environment.

Maple room

The planning in Maple room is based on the interests shown by children, what they talk about, what they play with and how they play with it. We are always keen to hear what you like doing at home too. Please use your child's diary to inform us of any exciting activities you have done or places and events you have been to.

This term we will focus on settling the children in to nursery and we will be supporting them with their emotions and feelings and we will also think about the changing of the seasons. The role play in Maple room is a baby nursery where the children can look after and nurture the babies, we have already observed children taking books to read to the babies in their cots.

Outside we have our Forest café for children to explore and make meals and drinks for each other. We spend time outside each day and will get dirty, please make sure you send

Remember you can now use Evergreens email address if you need to contact us.
evergreenoffice@abbotsgreenacademy.co.uk

The updated Evergreen Menu is available to view on the Abbots Green School website.

Polite reminders

In Maple room children need a water bottle, a pair of boots that stay at nursery along with a pair of slippers. Please make sure all items are named.

Wow tree

The Evergreen Wow tree needs some leaves!

The Wow tree is where children can add a leaf when they achieve an amazing piece of learning, or if they have learned to put their own shoes on or have learned to use the toilet.
