

How to sign your child up with Showbie to access the work your teachers would like you to complete.

Use either the app or webpage - <https://www.showbie.com/>

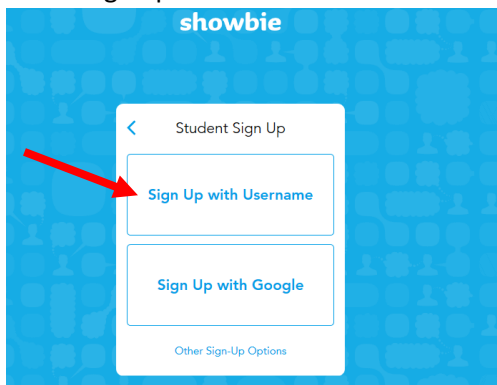

1) Select sign up for free

2) Select I'm a Student, once signed up you can just click on 'sign in' each time.

3) Select 'sign up with username'

4) Add your child's details to get them an account

The image shows the "Student Sign Up" form. It has a blue background with a pattern of small white squares. At the top, the Showbie logo is displayed. Below the logo, there is a "Student Sign Up" section with a back arrow and the text "Student Sign Up". Below this, there are five input fields: "First Name", "Last Name", "Username", "Password", and "Email (Optional)". At the bottom of the form, there is a green "Sign Up" button.

For the username use: first name initial of surname number of your year group – all lowercase

e.g. first name (freddie) initial of surname (r for Roberts)

number of your year group (2 for Year 2) =

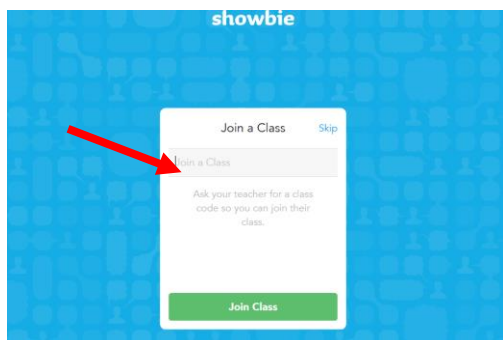

Username (example) - freddier2

Password: please create your own unique password. If

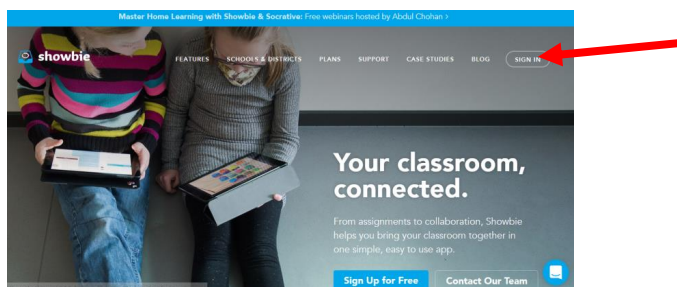

desired, this can be recorded somewhere safe in the event of forgetting.

If a message says this username has been taken already then add a zero after the year group number.

- 5) Click the green sign up and then it will ask you to 'join class'. **Add the Class Code** your teacher gives you. Click join class and then you will see the name of your Class where you can click to see the work added by your teacher.

Then you are all set up so next time you just go to sign in on the first page and it will ask for your username and password (that you just created).

I hope this makes it easy for you to access work and send comments to your teachers (within an assignment above the work added will be a box that says write comment). In the comment box you can type messages to your teachers or if you click the blue add sign you can attach photos of your work.

These are the options when on a computer so you can click on add from computer and add the saved photos of your work OR if on the app the options will say 'Camera' and 'Photo Library' to upload the photos.

Voice Note – Record yourself saying a message to leave for your teacher. Click voice note then the red circle to start recording, pause to stop then play to listen back and if happy click 'Post' to send.

Work from teacher – this could be Power Points or pdf's so it won't always say Library photo.

Alternatively, for those children who already have a Showbie account and wish to use this one (and you can remember the username and password, you can simply log in to Showbie and select join class. Enter the new code you have been sent for your new class and you're all set! You can change your password at any time.
